

Total Deliveries

The following table reports the number of Medicaid ID numbers from deliveries and, by inference, the number of births. The data includes stillborn deliveries and, for multiple births, counts only 1 unless the claim is paid with more than one birth. The data is from paid claims with dates of service (dates of deliveries) within the specified time periods. The data is as accurate as the claims submission. The data is not static and is current as of February 12, 2007. There is a lag in claims because providers have 1 year to file a claim and a subsequent year to resolve claims.

Calendar Year (01/01 - 12/31)	Number of Deliveries (01/01 - 12/31)	State Fiscal Year (07/01 - 06/30)	Number of Deliveries (07/01 - 06/30)
